

12 May 2021

An extremely timely and invaluable contribution to migration policy and scholarship. It offers a vivid and incisive account of migrants forced to take treacherous voyages by bringing together compelling empirical materials across the globe. This interdisciplinary book deserves wider readership among those interested in gaining deep insights into the dilemma and aspirations embedded in these journeys. -- Naohiko Omata, Oxford University

DEADLY VOYAGES

Migrant Journeys Across the Globe

Edited by: Veronica Fynn Bruey and Steven W. Bender

Free Virtual Book Launch Hosted by ISS

Deadly Voyages: Migrant Journeys Across the Globe explores the burdens and impact of perilous migration, while considering which laws, policies, practices, and venues might establish empathy and protection for migrants. This interdisciplinary volume envisions and calls for a transformation in migration policy, motivated by the common goal of drastically reducing the peril migrants face when compelled to make their treacherous journeys. All contributors to this volume agree on the inadequacy of current approaches and the dire need for change in global migration law and policy.
